Model

UID No Automation System

Name : Sahana Rao
SRN : PES1UG20CS588
Section : J

Use Case Description:

Name: Verify and issue UID No.

Summary: To verify documents uploaded by UIDN Official and issue UID No to applicant.

Actor: Backend Official

Pre-condition:

The documents must be uploaded by the UIDN Official.

Use case Description:

- Backend official has to verify the documents only after the UIDN official has uploaded documents(include)
- Only on approval he/she can assign UID No (include)
- Dispatch in the form of (generalisation) printed copy or e-copy(if e-copy is requested by the card holder--include).

Post condition:

- Issue printed or e-copy.
- Verify next set of uploaded documents.

Exception:

If uploaded documents are invalid, inform the applicant via UIDN Official.

Alternate Flows:

If any issues are faced, report to main office.

Assumptions:

All applicants have uploaded valid documents.
